

GEMINIFLOW EXCLUSIVE RESOURCE

Gemini Prompt Playbook

50+ copy-paste prompts designed specifically for office administration, scheduling, sheet parsing, and report writing.

Created by GeminiFlow Training Team

Version 1.0 (June 2026)

Target Audience: Office Admins, Operations, & Executives

Accelerate your daily workflow by 10x with Google Gemini integration.

Introduction

Welcome to the Gemini Prompt Playbook. This guide provides highly tailored, copy-paste prompts optimized for office operations, administrative tasks, spreadsheet calculations, and content polishing. By utilizing these prompts, administrative teams can eliminate repetitive work, streamline scheduling, format complex documents, and speed up reporting by 10x.

How to use this playbook:

1. Copy the text inside the prompt boxes.
2. Replace any bracketed text [like this] with your actual business data or context.
3. Paste the prompt directly into Google Gemini (gemini.google.com) or the Gemini side panel in Google Workspace.

Table of Contents

Section 1: Office Administration & Communications	Prompts #1 - #15
Section 2: Calendar, Scheduling & Event Planning	Prompts #16 - #27
Section 3: Spreadsheet Formulas & Data Analysis	Prompts #28 - #40
Section 4: Report Writing, Editing & Summarization	Prompts #41 - #51

Section 1: Office Administration & Communications

#1 Meeting Minutes Summarizer

Use case: Translate raw transcript notes into structured meeting minutes.

Act as an expert administrative assistant. Read the raw, chaotic meeting notes below and organize them into professional meeting minutes. Use this structure: 1) Meeting Topic & Date (estimate from text), 2) Attendee List (if mentioned), 3) Key Discussion Points (summarized in bullets), 4) Action Items (table with Columns: Task, Assigned To, Deadline). Keep the tone professional and concise.

Raw Notes:

[Insert raw notes/transcript here]

#2 SOP Generator

Use case: Generate a Standard Operating Procedure (SOP) draft for common tasks.

Create a comprehensive, step-by-step Standard Operating Procedure (SOP) for [insert task, e.g., processing weekly travel expense reports]. The SOP must include: 1) Objective, 2) Prerequisites/Systems Needed, 3) Detailed Step-by-Step Instructions, 4) Troubleshooting common issues, and 5) Approvals/Review timeline. Format with clear subheadings and bullet points.

#3 Email Tone Adjuster

Use case: Change email draft to be polite yet assertive.

Rewrite the following draft email to [insert recipient role, e.g., vendor] requesting [insert request, e.g., the delayed invoices]. The tone should be highly professional, polite, yet firm and assertive about the deadline. Maintain clarity and keep it under 150 words.

Draft Email:

[Insert draft here]

#4 Policy Simplifier

Use case: Translate legal policies into plain, employee-friendly text.

Analyze the corporate policy excerpt below. Translate it into clear, plain English (or Vietnamese if input is VI) that any employee can easily understand. Create a 'Key Takeaways' bulleted section at the top, followed by a 'What you need to do' section. Remove all complex legal jargon.

Policy Excerpt:

[Insert policy here]

#5 Internal Newsletter Draft

Use case: Write a monthly office announcement/newsletter.

Draft a monthly internal newsletter for our team. Include sections for: 1) A warm greeting from management, 2) Spotlights on key team achievements this month: [achievements], 3) Upcoming office events: [events], and 4) Reminders about the upcoming office holiday schedule: [dates]. Tone should be engaging, friendly, and collaborative.

#6 Project Kickoff Announcement

Use case: Notify the company or team about a new project launch.

Draft a professional internal email announcing the launch of [Project Name]. Explain: 1) The core objective of the project, 2) Why it matters to the company, 3) Key milestones, and 4) How employees can reach out if they have questions. Set the tone to be inspiring and informative.

#7 New Client Onboarding Checklist

Use case: Create a standard checklist for onboarding clients.

Generate a detailed checklist of administrative tasks required to onboard a new client in [industry/type of business]. Group the checklist into 3 phases: 1) Pre-onboarding (contracts, system setup), 2) Welcome phase (orientation, scheduling first call), and 3) Post-launch (feedback loop, weekly status setups).

#8 Standard Document Template

Use case: Generate a blank template framework for reports.

Design an outline framework template for a [insert document type, e.g., Monthly Sales Performance Report]. Provide the exact headings, subheadings, and brief instructions in brackets of what information should be filled in under each section. This will be used as a reusable template.

#9 Office FAQ Document

Use case: Draft an FAQ page based on basic office rules.

Write an FAQ (Frequently Asked Questions) document containing 8 common questions and clear answers about [insert topic, e.g., remote work hybrid schedule, office parking permissions, or keycard access]. Use clear, friendly, and definitive language.

#10 Official Corporate Memo

Use case: Draft an official memo from the executive team.

Draft an official company memo. Sender: [Executive Team/Name], Recipient: [All Staff], Date: [Today's Date], Subject: [Subject, e.g., Transition to new ERP system]. The memo must clearly communicate: 1) The change occurring, 2) Effective date, 3) Specific actions expected from staff, and 4) Contact details for questions. Tone must be authoritative yet helpful.

#11 Out of Office Email

Use case: Create professional, structured out-of-office replies.

Draft three variations of an Out-of-Office (OOO) email auto-reply for my upcoming vacation from [Start Date] to [End Date]. Variation 1: Standard professional (directs urgent requests to [Name/Email]). Variation 2: Friendly/Casual for internal teammates. Variation 3: Short and direct for external clients. Ensure brackets are clear for easy filling.

#12 New Employee Checklist

Use case: Create an onboarding checklist for the HR/Admin side.

Create a checklist for HR and Admin teams to prepare for a new employee's first week. Include tasks for: 1) IT/Hardware provisioning, 2) Software/Account setups (Slack, Email, Workspace), 3) HR documentation (contracts, bank details), and 4) Welcome activities (buddy system assignment, lunch setup).

#13 Document Clean-up & Formatting

Use case: Polish raw notes into a structured, readable document.

Review the raw, unformatted text below. Clean up any obvious grammar/spelling issues, add appropriate headers and bullet points where logical, and format it into a highly readable, professional document fit for executive review.

Raw Text:

[Insert text here]

#14 Multilingual Email Translator

Use case: Translate an email accurately while retaining business tone.

Translate the following business email from [Source Language, e.g., English] to [Target Language, e.g., Vietnamese]. Ensure the translation uses proper corporate grammar, polite idioms specific to the target language, and maintains a highly respectful, cooperative business tone.

Email Text:

[Insert email here]

#15 Expense Claim Review Template

Use case: Draft description text for submitted claims.

Write a short, standardized description for an expense reimbursement claim. The claim is for [expense reason, e.g., hosting a dinner for Client XYZ on June 22]. Include fields for Date, Purpose, Attendees, Total Amount, and Project Code to ensure finance audits go smoothly.

Section 2: Calendar, Scheduling & Event Planning

#16 Calendar Conflict Resolution

Use case: Draft an email resolving multiple calendar clashes.

Draft a polite email to [Client/Stakeholder Name] explaining that we have a scheduling conflict for our meeting on [Date/Time]. Suggest three alternative timeslots: [Slot 1, Slot 2, Slot 3]. Ask them to confirm which slot works best, or to propose a time of their convenience. Keep the tone warm and highly flexible.

#17 VIP Visit Itinerary

Use case: Design a structured itinerary for a VIP client visiting the office.

Create a detailed, minute-by-minute itinerary for a VIP guest visiting our headquarters on [Date]. The visit is from [Start Time] to [End Time]. Include slots for: arrival & welcome coffee, office tour, main executive presentation, catered lunch, product demo, and wrap-up discussion. Include placeholders for assigned hosts for each segment.

#18 Business Travel Planner

Use case: Organize flights, hotels, and meetings into a compact guide.

Create a consolidated business travel itinerary table based on this raw information: [Insert flight numbers, departure times, hotel booking details, and meeting schedules]. The output must be a clean, chronological markdown table showing Date, Time, Activity/Event, Location, and Confirmation/Notes.

#19 Project Timeline Estimator

Use case: Estimate dates and durations based on milestones.

Given a project starting on [Start Date] with a total duration of [Duration, e.g., 6 weeks], list the estimated start and end dates for the following standard project phases: 1) Discovery & Kickoff (10%), 2) Design & Planning (20%), 3) Execution & Development (50%), 4) Review & QA (10%), and 5) Launch (10%). Adjust percentage durations based on standard practices if necessary.

#20 Scrum Sprint Planning Agenda

Use case: Organize a sprint kickoff meeting structure.

Create a 45-minute sprint planning meeting agenda for a software team. Break it down into timed blocks (e.g., 5 mins, 10 mins). For each block, specify: 1) Goal/Objective, 2) Presenter/Lead, and 3) Discussion topics (e.g., backlog review, capacity planning, task commitment).

#21 Workshop Agenda Builder

Use case: Plan a half-day corporate training workshop.

Design a detailed agenda for a half-day (4-hour) training workshop on [topic, e.g., AI productivity tools]. The agenda must include: 1) Introduction/Icebreaker, 2) Session 1 (Core concepts), 3) Mid-session break, 4) Session 2 (Hands-on exercise), 5) Q&A session, and 6) Feedback & closing. Provide suggested durations and interactive prompt ideas for the facilitator.

#22 Shift Rotation Schedule Creator

Use case: Draft guidelines for managing shift allocations.

Create a policy outline and simple guidelines for managing a rotating shift schedule for a team of [number, e.g., 8] customer support representatives. Define rules for: shift handovers, requesting time off, maximum consecutive night shifts, and shift swaps. Ensure the tone is fair and employee-focused.

#23 VIP Board Meeting Schedule

Use case: Plan the scheduling process for board members.

Draft a formal request email to our board members' executive assistants to schedule the Q3 Board Meeting. Suggest a date range [e.g., October 10-15] and ask them to share their executives' availability via a voting poll [insert link placeholder] or direct response by [Response Deadline]. Keep it highly polite and professional.

#24 Brainstorming Session Outline

Use case: Draft a structured outline for a brainstorming workshop.

Create a structured plan for a 1-hour brainstorming session with [number] teammates. The goal is to brainstorm ideas for [insert objective, e.g., reducing paper waste in the office]. Include rules of engagement, 3 specific prompt questions to trigger discussion, and a system for voting on the best ideas.

#25 Eisenhower Priority Matrix Classifier

Use case: Classify a list of raw tasks into a 4-quadrant system.

Act as a productivity coach. Read the list of administrative tasks below and categorize them into the 4 quadrants of the Eisenhower Matrix: 1) Urgent & Important (Do first), 2) Important but Not Urgent (Schedule), 3) Urgent but Not Important (Delegate), 4) Neither Urgent nor Important (Delete/Postpone). Explain the logic briefly for each.

Tasks:

[Insert tasks here]

#26 Project Timeline Adjuster

Use case: Draft a communication explaining project schedule shifts.

Draft an email to [Project Sponsor/Client] explaining that the timeline for [Project Name] has slipped by [e.g., 2 weeks] due to [insert reason, e.g., delays in third-party API approval]. Detail: 1) The new target launch date, 2) What steps we are taking to mitigate further delays, and 3) A request for a brief call to align on this adjustments. Keep it transparent and solution-oriented.

#27 Time-Blocking Schedule Planner

Use case: Translate a raw to-do list into a structured daily schedule.

Below is my to-do list and energy levels for tomorrow. Organize this into a time-blocked daily schedule from 9:00 AM to 5:00 PM. Group high-energy tasks in the morning and administrative/routine tasks in the afternoon. Include lunch and short breaks.

To-do list:

[Insert list here]

Energy note: High energy between 9-11 AM, low energy after 3 PM.

Section 3: Spreadsheet Formulas & Data Analysis

#28 Excel Formula Generator

Use case: Explain what formula is needed based on a plain-text request.

I need a Google Sheets/Excel formula that does the following: [explain logic, e.g., looks up the value in cell A2 in column G of another sheet named 'Inventory' and returns the corresponding price in column I, but if it is not found, returns 'Out of Stock']. Provide the exact formula, explain how each part of it works, and list any requirements (like column sorting).

#29 CSV Data Insights Summarizer

Use case: Extract key trends, outliers, and insights from CSV text.

Analyze the CSV data paste below. Act as a senior data analyst and write a summary containing: 1) Key trends observed, 2) Top 3 outliers or anomalies in the numbers, 3) Calculated averages or totals for [key column], and 4) Strategic recommendations based on these numbers.

CSV Data:

[Insert CSV text here]

#30 Data Cleaning Helper

Use case: Write instructions/formulas to clean messy text inputs.

I have a column of messy data in Google Sheets containing [insert description, e.g., customer names with weird spaces, mixed capitalization, and random special characters]. Tell me the exact steps, formulas (like TRIM, PROPER, REGEXREPLACE), or Google Apps Script I can use to clean up this entire column to look standard and uniform.

#31 Customer Feedback Classifier

Use case: Categorize text reviews into sentiment and departments.

Analyze the list of customer reviews below. Categorize each review into: 1) Sentiment (Positive, Neutral, Negative), and 2) Responsible Department (Support, Product, Billing, Sales). Present the output in a markdown table.

Reviews:

[Insert reviews here]

#32 Conversion Rate Calculator

Use case: Generate a formula and explain calculations for marketing metrics.

Explain how to calculate the Lead Conversion Rate and Cost Per Lead (CPL) in a marketing tracking spreadsheet. Provide the exact mathematical formulas, the equivalent Google Sheets formulas (using cell references like B2 for visitors and C2 for leads), and brief advice on how to interpret these metrics.

#33 Pivot Table Setup Guide

Use case: Provide step-by-step instructions on setting up pivot tables.

I have a large spreadsheet table with columns: Date, Product Category, Region, Sales Representative, and Revenue. Give me step-by-step instructions on how to set up a Pivot Table in Google Sheets to show: 1) Total sales by Product Category, broken down by Region, and 2) Filtered to show only the year 2026.

#34 Budget Tracker Setup Plan

Use case: Structure a spreadsheet for tracking department expenses.

Design the column structure and formatting rules for a department budget tracker spreadsheet in Google Sheets. Suggest columns, data validation dropdown rules (e.g., Expense Category list), and custom conditional formatting rules (e.g., highlight red if expense exceeds budget).

#35 Sales Forecasting Formula Plan

Use case: Explain formulas for moving averages or projections.

How do I set up a simple 3-month moving average sales forecast in Google Sheets? Provide the formula (e.g., using AVERAGE) with cell coordinates, explain how to drag it down for future months, and outline its limitations compared to exponential smoothing.

#36 Inventory Alert Rules

Use case: Create logical conditions for alerting on low stock.

Write an IF/AND/OR logic formula in Excel/Google Sheets that checks: 1) If the 'Current Stock' (Column B) is less than the 'Minimum Threshold' (Column C), AND 2) If 'On Order' (Column D) is FALSE. If both are met, display 'Reorder Immediately'. Otherwise, display 'OK'. Explain the formula parts.

#37 RegEx Pattern Writer

Use case: Get regular expressions for extracting data from columns.

Write a Regular Expression (RegEx) pattern that matches [insert requirement, e.g., standard email addresses, or tax codes with format XX-999999]. Explain how the pattern matches each character and provide the Google Sheets formula `REGEXEXTRACT` or `REGEXMATCH` syntax to apply it to Column A.

#38 Duplicate Row Resolver

Use case: Find and resolve duplicate entries in large sheets.

Explain the best methods to find, highlight, and delete duplicate rows in Google Sheets. Show: 1) The menu path to remove duplicates, 2) A conditional formatting custom formula to highlight duplicates in red, and 3) A formula (using UNIQUE or QUERY) to extract unique entries into a new sheet.

#39 Data Masking Formula

Use case: Mask sensitive columns like emails or phone numbers.

Provide a formula to mask email addresses in Google Sheets (e.g., turning 'john.doe@email.com' into 'jo***ee@email.com' or masking the first 5 digits of a phone number in Column A). Explain how the text extraction formulas work together.

#40 Query Function Builder

Use case: Create powerful SQL-like queries in Google Sheets.

Write a Google Sheets `=QUERY()` formula that pulls data from a sheet named 'MasterData' (columns A to F). The query should select Product (Col B), Region (Col D), and Profit (Col F) where Region is 'North America' and Profit is greater than 1000, sorted by Profit in descending order. Explain the query syntax.

Section 4: Report Writing, Editing & Summarization

#41 Executive Summary Writer

Use case: Condense a long report into a 3-paragraph executive summary.

Read the attached project report below. Act as a professional communications officer and write a compelling, high-level Executive Summary designed for our CEO. Keep it strictly to 3 paragraphs: Paragraph 1: Background & Objective. Paragraph 2: Key Findings & Results. Paragraph 3: Strategic Recommendations & Next Steps.

Report:

[Insert report text here]

#42 Performance Review Builder

Use case: Draft constructive, balanced performance review points.

Draft a constructive performance review paragraph for an employee. The employee's key strength is [insert, e.g., strong analytical skills and meeting deadlines], but an area of improvement is [insert, e.g., communication during project delays and active collaboration in meetings]. Frame the feedback in a supportive, professional, and growth-oriented manner.

#43 Weekly Status Report Builder

Use case: Summarize task bullet points into a readable weekly update.

I want to compile my weekly status update for my manager. Below are the tasks I worked on this week. Group them into three standard categories: 1) Completed this week, 2) In-progress/Next steps, and 3) Blockers/Risks. Summarize them into clear, professional bullet points.

Raw task list:

[Insert tasks here]

#44 Project Post-Mortem Report

Use case: Structure a post-project review highlighting lessons learned.

Help me draft a Project Post-Mortem/Retrospective report for [Project Name]. The project succeeded in [successes] but struggled with [challenges]. Structure the report with these sections: 1) Executive Summary, 2) Project Performance vs. Original Plan, 3) What Went Well, 4) What Didn't Go Well, 5) Lessons Learned & Actionable Recommendations for future projects. Use bullet points.

#45 Brand Copy Tone Adjuster

Use case: Change technical text into engaging, benefits-focused copy.

Act as a professional copywriter. Rewrite the highly technical description below to be engaging, benefit-driven, and written in a [insert tone, e.g., modern, conversational, and inspiring] voice. Focus on how this features solves problems for the end user rather than just listing tech specs.

Technical Draft:

[Insert text here]

#46 Style Guide Editor

Use case: Align a draft text to match a corporate style guide.

Review the text below and align it with the following corporate style guidelines: 1) Use active voice instead of passive voice, 2) Spell out acronyms on first use, 3) Use bolding for user actions, and 4) Keep paragraphs under 3 sentences. Explain any edits you made.

Style Guide: [Insert guide or write brief rules]

Text to edit: [Insert draft here]

#47 Grammar & Clarity Proofreader

Use case: Clean up grammatical issues and improve sentence flow.

Read the text below and check it for grammatical accuracy, spelling, and sentence flow. Provide: 1) A clean, polished version, 2) A list of major corrections made, and 3) Explanations of why the phrasing was changed to improve clarity.

Draft Text:

[Insert text here]

#48 Competitor Analysis Outliner

Use case: Structure a report analyzing key competitors.

Create a structured framework template for a competitor analysis report in our industry ([insert industry]). Detail what information should be gathered for each competitor, including sections for: Market Position, Core Product Strengths, Pricing Strategy, Marketing Channels, and Vulnerabilities/Opportunities for us. Explain how to conduct the SWOT component.

#49 Presentation Slide Outliner

Use case: Translate a report into a 10-slide deck structure.

Convert the report content below into a structured outline for a 10-slide presentation deck. For each slide, provide: 1) Slide Title, 2) Visual concept/layout suggestion (e.g., split layout, chart, quote), and 3) Bullet points for the speaker's talking notes.

Report Content:

[Insert content here]

#50 KPI Tracking Report Generator

Use case: Summarize monthly metric performance.

Draft a monthly KPI status report based on these metrics: [insert metrics, e.g., Sales: +5% MoM, Customer Support tickets closed: 98%, Website traffic: -2%]. Group by department, write a short summary analysis explaining what these numbers indicate, and flag any areas of concern (e.g., negative trends) with suggested next actions.

#51 Annual Report Intro Writer

Use case: Draft an inspiring opening letter to shareholders.

Draft an opening letter to shareholders/stakeholders for our annual report. The company achieved [milestones, e.g., record revenue growth, launched new sustainability initiative] this year, despite facing [challenges, e.g., supply chain costs]. Set a tone of resilience, transparency, and strategic confidence for the future. Keep it around 300 words.
